Dear Mr Rabjohn,

Thank you very much for your e-mail of 15 January 2007 to Commissioner Dimas in which you draw his attention to the International Association of Emergency Managers. Commissioner Dimas has asked me to reply to your mail.

By encouraging the development of disaster resistant communities, acting as clearing house and forum for a large spectrum of relevant issues, your organization provides an important contribution to improve disaster management.

I will therefore have no problem in informing the Members of the European Community civil protection mechanism about your organization.

Yours sincerely,

Hervé Martin
