Updated and Corrected Information

Dear County Chief Elected Official:

Yesterday, I sent you a request to assist the International Association of Emergency Managers in gathering information on county emergency management programs that will be useful in working with Congress on funding this year. I am providing the following information updated from yesterday's email.

I asked you to contact the person in your county responsible for emergency management and encourage them to respond to a survey request by IAEM which was sent in the last two weeks. It is asked that the survey be completed by February 6. In case your county emergency manager did not receive the request from their state association of local emergency managers, I am providing you with the survey monkey link

<https://www.surveymonkey.com/s/EMPGROI2012>

I am providing two contact names in case there is a question. Jessica Jensen, a research consultant who is volunteering her time to assist IAEM with the survey, can be reached at Ja.jensen@ndsu.edu or Martha Braddock, the Policy Advisor for the International Association of Emergency Managers, can be reached at braddock@iaem.com. Please note that the email address in yesterday's email for Martha Braddock was incorrect.

Thank you in advance for your cooperation with this survey.

Sincerely,

A handwritten signature in black ink that reads 'Larry E. Naake'. The signature is written in a cursive, flowing style.

Larry E. Naake
Executive Director
