

IAEM Standards & Best Practices (S&P) Committee Meeting

Thursday March 12, 2009 – 1:00 PM Eastern

Toll Free Access Number: 1-877-643-6951

In the 11/16/08 meeting of the IAEM S&P Committee in Kansas City, the discussion covered the purpose of the committee, how to serve IAEM's best interests regarding standards, which members in the organization are currently assigned to or working on standards, how to make the best use of that direct involvement, and ways to promote and enhance the membership's knowledge of standards. The group's recommendations for moving ahead were then submitted to the IAEM President and Board.

In preparation for our first conference call as a committee, please review the attachments provided: 1) 11/16/08 Minutes, and 2) List of current S&P Members.

You are requested to submit your ideas for the IAEM S&P Committee. Please reply by email with your thoughts on the following questions:

- Why did you join the S&P Committee?
- What do you want to see as result of the work of the S&P Committee?
- Are you interested in Program Standards, Technical Standards, or both?
- Other comments?

Dean Larson, Billy Zworsche and I thank you for your interest and willingness to work with us to make the S&P effort worthwhile and, most of all, beneficial to the IAEM membership.

Please mark your calendar for the March 12 conference call. An agenda will be sent to all S&P Committee members with a reminder prior to the call.

Best regards,

Avagene Moore, CEM®
IAEM S&P Committee Co-Chair
