

IMPROVED RESILIENCE THROUGH COLLABORATION:

WATER AND EMERGENCY SERVICES SECTORS WEBINAR SERIES

Join us in a three part webinar series for drinking water and wastewater utilities and emergency management agencies to learn how to increase resilience and improve emergency response efforts.

1

WHY SHOULD I CARE ABOUT COLLABORATION?

May 10, 2017, 1-2pm EDT

Lauren Wisniewski, Environmental Engineer, U.S. Environmental Protection Agency

Ben Ruppert, Emergency Management Coordinator, City of Hopewell, Virginia

Jaimie Foreman, Certified Operator/Regulatory Compliance Administrator, City of Carmel Water Utilities (IN)

This webinar will provide an overview of the critical interdependencies between the water and emergency services sectors. It will include speakers from an emergency management agency and a water utility to discuss how their organizations have benefitted from mutual collaboration.

2

WHAT HAVE OTHERS DONE?

May 24, 2017, 1-2pm EDT

Jonathan Reeves, Manager - Office of Emergency Management, DC Water

Lucas Dante, Washington D.C. Homeland Security and Emergency Management Agency

Chris Wanner, Director of Operations, Portland (OR) Water Bureau

Courtney Patterson, Operations Manager, Portland (OR) Bureau of Emergency Management

This webinar will provide in-depth discussions of how two drinking water and wastewater utilities have worked with their local emergency management agencies, to their mutual benefit.

3

CONFRONTING CHALLENGES – ACCESS AND FUEL SUPPLY PLANNING

June 14, 1-2pm EDT

Dale Pierson, Executive Director, Rural Water Association of Utah

Utah Emergency Management

Jim Wollbrinck, Manager of Security & Business Resiliency, San Jose (CA) Water Company

San Jose (CA) Office of Emergency Services

In this webinar, speakers from both sectors will discuss how they approached resolving access issues to disaster sites (credentialing) and what efforts they have undertaken to create a more resilient fuel supply.
